WINTER**

## Trusted dental supplies and the dental expertise you need, when you need it.

One thing that the John Winter dental team have learnt from their time working in dental laboratories or with those that make them successful, is that reliability is key. And that extends to the products we offer. We have carefully selected a range of products and partners, as well as developing our own unique formulas to bring you the best in both digital and traditional workflows.

### Consumables

The A-Z of dental lab consumables, from Acrylic to Zirconia, and everything between. For all your acrylics, alloys, blanks, burrs, brushes, denture teeth, duplicating materials, glazes, plasters, PMMA, resins, special trays, stains, waxes and zirconias. From brands inc. Dental Direkt, Shofu, Shera, Polident, Vertex, Formlabs, NextDent and of course, John Winter's own products.

### Analogue equipment

Everything you could need for traditional dental laboratory production. We offer a range of burn-out furnaces, boiling-out units, casting machines, compressors, extraction, hand pieces, light-cure boxes, model trimmers, polishing lathes, sand blasters, steam cleaners and vacuum mixers.

### Digital equipment

Hand-picked digital equipment for the modern dental lab. The best in 3D scanners, 3D printers, milling machines, resin mixers, post processing equipment, PCs and laptops with Exocad software, sintering furnaces, and supporting extraction etc. From brands inc. DG Shape, Exocad, Formlabs, NextDent and DOF.

**We pride ourselves on offering more than just products, but in building lasting relationships with our customers, offering detailed technical advice and ongoing professional support and training to supplement our fantastic product range.**

Our technical sales managers are on hand to advise on any aspect of your business, and are supported by our fantastic customer service team, as well as our dedicated service engineer.

**JOHN  
WINTER**

## Working better together

At John Winter we focus on building valuable relationships that help customers like you to consistently deliver even better outcomes for your customers. We've been supporting dental technicians for over 30 years and our dedicated team have the technical knowledge, expertise and experience, often from having worked in a business just like yours.

We know how important it is that you have products you can rely on to deliver consistent performance. We carefully choose products from suppliers around the world, and even have exclusive UK distribution agreements with industry leading suppliers who choose us because of our industry expertise.

## A wealth of experience and knowledge

All our technical sales representatives have real life experience in dental laboratories and understand any issues that you may be experiencing. They can provide real experience and advice as well as ongoing training with our partners and suppliers.

## After sales support

We pride ourselves on offering exceptional customer service. This starts when an order is placed and doesn't stop once the product has been delivered – we can support you with installation or training, and are available to help with any questions you may have after installation. Our customer service team are also on hand for further question or queries.

## Servicing and maintenance

Our dedicated service and maintenance engineer Paul Stanger, is familiar with all our products, and can offer testing and calibration, servicing and repairs across digital and traditional equipment. We can also design a cost-efficient service and maintenance plan, tailored to your specific needs.

## Get in touch today.

Whether you want to place an order, request more details or book a service or repair, simply call **01422 364 213** and **press 1 to speak** to our customer service team.

## Gypsum products

### General plasters

Product name:	Available in:	Weight/size:	Product code:
<b>Super White</b> A smooth white class 2 plaster. Used for; Flasking Articulating General model making.		25kg	SY010
<b>Super Yellow</b> A vivid yellow class 3 plaster. Used for; Highly detailed prosthetic models Partial denture models Opposing models Ideal for chrome cobalt working models.		25kg	SY015
<b>Super Blue</b> A vivid blue class 3 plaster. Used for; Highly detailed prosthetic models Partial denture models Opposing models Ideal for chrome cobalt working models.		25kg	SY020
<b>Fine Casting Plus</b>		25kg	n/a
<b>Dental</b> A white class 2 plaster. Used for; Articulating Flasking. Smoother.		25kg	DP025
<b>Surgical</b> A white class 2 plaster. Used for; Articulating Flasking. Smoother.		25kg	SU030
<b>Denstone KD</b> An everyday yellow class 3 plaster. Used for; Prosthetic models Partial models Opposing models.		25kg	KD035
<b>Denstone HXD</b> An everyday green class 3 plaster. Used for; Prosthetic models Partial models Opposing models. Higher expansion for acrylic work.		25kg	HX040
<b>Crystacal R</b> A white class 3 plaster. Used for: Prosthetic models Partial models Opposing models Orthodontics Cobalt. Affordable all-rounder.		25kg	CR050

Product name:	Available in:	Weight/size:	Product code:
<b>Crystacal D</b> A yellow class 3 plaster. Used for; Prosthetic models Partial models Opposing models Chrome cobalt.  Affordable all-rounder.		25kg	CD045
<b>Flasking</b> Specifically designed for flasking.		25kg	UF055
<b>Dental SP</b> A white class 2 plaster. Used for; Articulating Flasking.  Smoother.		25kg	PD061
<b>Prestia Superstone</b> A budget, yellow class 3 plaster. Used for; Prosthetic models Partial models Opposing models.  Budget friendly.		25kg	n/a

## Die stones

<b>John Winter Novastone</b> Class 4 peach user friendly diestone.		25kg	NVS025
<b>John Winter Winstone</b> Class 4 blue user friendly diestone.		25kg	WS70
<b>John Winter Legacy Stone Rose</b> Class 4 pink user friendly diestone.		25kg	n/a
<b>John Winter Regency Stone Grey</b> Class 4 grey user friendly diestone.		25kg	n/a
<b>Shera Aqua</b> An alternative cost effective die stone. Super hard for master models for the chrome technique as well as for sectioned, master and static models for crown and bridge, inlay and onlay techniques.	Pink Golden Brown	20kg	101080-50 101080-18
<b>Shera Premium</b> A universal super hard stone. Used for; Sectioned, master and static models for crown and bridge, inlay/onlay and chrome techniques, opposing models.	Apricot Golden Brown Grey Ivory Light Green White Yellow	20kg	101070-02 101070-018 101070-22 101070-10 101070-30 101070-70 101070-14

Product name:	Available in:	Weight/size:	Product code:
<b>Shera Favorit</b> Acrylic reinforced stone. Used for; Implant techniques Sectioned, static and master models in crown and bridge work.	Ivory Apricot Golden Brown	20kg	101060-10 101060-02 101060-18
<b>Shera Max 2000</b> Super hard stone for demanding work. Used for; Implant work Sectioned, master and static models for crown & bridge Inlay/onlay and chrome techniques Opposing models.	Golden Brown Grey Lemon White	4 x 4.5kg	101010-18 101015-18 101010-34 101010-70
<b>Shera Hardrock</b> A die stone for precision model making. Used for; Master models Dental arches Single dies Static models.	Light Yellow Light Green Golden Brown	4 x 4.5kg	101025-84 101025-85 101025-18
<b>Shera Pure</b> A super hard stone. Easily readable and non-splintering.	Cream Grey	6 x 3kg	101155-82 101155-25

### Basing stones

<b>Shera Sockel Flussig</b> A liquid, super hard stone for basing arches in combination with base formers.	Bright Blue Rich Yellow Terracotta Turquoise White Light Green	20kg	101110-38 101110-46 101110-62 101110-66 101110-70 101110-85
---	---	------	--

### Specialised stones and plasters

<b>John Winter Snow white stone</b> High-strength snow-white diestone with a composite strength of 10,500psi. Use for orthodontic and diagnostic models. Low expansion on setting.		25kg	SW580
<b>Shera Arti</b> Class 3 articulating plaster.		20kg	102040-70
<b>Shera KFO GIPS</b> Super white hard stone for study and static models for orthodontics.		20kg	102080-58

### Polyurethane

<b>Sherapolan</b> A model resin based on polyurethane.	Ivory Light Brown Grey	Set consists of: 300g component A, 150g component B, 10 mixing cups, 5 spatulas, 50ml Sheraseparat (separating agent)	516010 516011 516017
---	------------------------------	--	----------------------------

## Accessories

Product name:	Available in:	Weight/size:	Product code:
<b>JW Bond IT</b> Our own-brand cyanoacrylate adhesive (super glue).		20ml	BL615
<b>John Winter Cynoset activator spray</b> Use with any cyanoacrylate (super glue) to speed up setting reaction.		200ml	TL750
<b>Shera Brilliant</b> A multi-purpose coating for plaster/stone. Hardens and insulates stone models and dies. Can be dipped, brushed or sprayed on to form a water-resistant coating.		500ml	709035
<b>Shera Flocc</b> Plaster/stone precipitation agent. Helps to clear slurry in a plaster trap. Includes odour reduction agent.		1 litre 10 litre	709040 709046
<b>Shera Sep G</b> Separates plaster/stone against plaster/stone as well as sealing the surfaces.		500ml	701045
<b>Shera Isolex</b> Separating agent in a sponge for separating; Wax against stone/plaster Wax against wax Wax against alloy.		20ml	701087
<b>Shera Mega 2000</b> Cyano-acrylate adhesive (super glue) With non-block top. Resistant to high and low temperatures.		20ml	958120
<b>Tri sodium citrate</b> For dissolving plaster or as a retarding agent to offer a longer working time on plasters and stones.		1kg 5kg	SC630 SC625

## Die spacers

<b>Shera Stumpflack</b> Die spacer between die and crown whilst simultaneously sealing and hardening the surface of the stone dies.	Blue Clear Red Silver	15ml bottle with brush	962101 962201 962301 962401
<b>Shera Stumpflack thinner</b> Thinner for space dies.		100ml bottle	962801

**Brochures available for all our brand partners on request.**

## Dowel pins

Product name:	Available in:	Weight/size:	Product code:
<b>Shera dowel pins</b> Manufactured to exacting standards from high quality brass.			
<b>Plain dowel pin</b> For use with pindex type machines Measures only 17mm in length.		Boxes of 1,000	942103
<b>Swordfish style pin</b> With spike attached for use directly with impressions. Total length including spike is 28.5mm.			942104
<b>Step pins</b> 1.6mm Dia pin with plastic sleeve ideal for thin preps.			942801
<b>Shera drill for step pins</b> A graduated brass dowel pin with a plastic sleeve for easy model location and a stable hold.		Boxes of 1,000	942901

## Soft tissue

<b>Mixing nozzles</b>	Pink	Pack/50	n/a
<b>Shera mixing nozzles</b>	Pink Blue Yellow		n/a
<b>Shera gingival kit</b> Supplied in cartridge form with mixing tips. Cures at room temperature - ready to trim in 20 minutes.		Set consists of: 2 double cartridges each of 50ml, 12 mixing nozzles, 50ml Sheraseparat (separating agent)	960101
<b>Shera gingival nozzles</b> For 50ml cartridges.	Pink	Pack/50	960302
<b>Shera gingival tips</b> For mixing nozzles.		Pack/50	960304
<b>Shera extruder gun</b> Suitable for most modern 1:1 cartridge systems including; Shera Gingival Shera Crystal Voco Structur 2 Voco UFI gel (hard and soft relinings).		Each	G504

## Investment

### Crown and bridge investment

<b>Polident Univecast</b> Phosphate bonded crown & bridge investment. Also suitable for pressable ceramics.		40 x 150g 200 x 60g	n/a
--	--	------------------------	-----

Product name:	Available in:	Weight/size:	Product code:
<b>Shera Fina rapid</b> Universal crown and bridge investment suitable for all dental alloys. Suitable for rapid burnout as well as traditional techniques.		50 x 60g 38 x 160g	201020 201022
<b>Shera Fina 2000</b> Universal crown and bridge investment for the traditional slow heating process or rapid burnout. Also suitable for pressable ceramics.		50 x 60g 60 x 100g 38 x 160g	201010 201011 201012

### Lithium disilicate investment

<b>Shera Under Pressure</b> Special investment for press ceramic.		35 x 100g	201061
<b>Shofu Ceravety investment</b> Universal speed investment for pressable ceramics and cast alloys.		Powder 30 x 100g Liquid 2 litre	6966 6967

### Chrome investment

<b>Shera Cast</b> A chrome investment suitable for gel or silicone duplication.		50 x 200g 50 x 400g	202020 202021
<b>Shera Practical</b> A cost effective cobalt chromium investment suitable for gel or silicone duplication.		50 x 400g	202051

### 3D printing investment

<b>Shera Vest RP</b> Investment for rapid prototyping.		4 x 2.5kg	202095
---	--	-----------	--------

### Liquids for investment

<b>Shera expansion liquid 100%</b> Mixing liquid for all Shera investment.		1 litre 5 litres	208010 208011
<b>Shera expansion liquid 140%</b> Mixing liquid for all crown and bridge work which require a higher expansion.		1 litre	208020
<b>Polident Polisol liquid</b> For Univecast powder.		1 litre	05825

### Surface tension reducers

<b>John Winter De-bubblizer</b>		1 litre	DB120
<b>Shera Master</b> Improves the flow characteristics of stones in silicone polyether and persulphate impressions cures at room temperature.		1 litre	709070

Product name:	Available in:	Weight/size:	Product code:
<b>Shera Relaxa</b> Impression and surface tension release agent for alginate, polyether and silicone impressions.		500ml	709175
<b>Mould formers</b>	K&B (3x mould) K&B (6x mould) K&B (9x mould) (with sprue former)	1 former	926101 926102 926103
	MG, without sprue former		926105
<b>Shera Bio muffle ring liner</b> Bio casting ring liner.		1 roll, 50mm wide, 1mm thick, 25m long.	926211

### Model dip

<b>SheraPor L</b> A solvent-based, dipping hardener.		500ml 5 litre	926301 926302
<b>SheraPor L Verdunner</b> A thinner for use with SheraPor L.		500ml	926303
<b>SheraPor L Safe Dip</b> A solvent-free dipping hardener.		1 litre 5 litre	926401 926402

## Alloys

### Crown and bridge alloys

<b>Aalbadent NPG +2 Alloy</b> A premium, base metal type 3 casting alloy with 2% gold for fixed crowns, bridges and onlays.		50g	n/a
<b>Aalbadent NPG Alloy</b> A premium, non-precious casting alloy for fixed crowns, bridges and onlays, NPG.		100g	n/a
<b>Aalbadent Verabond II</b> A premium, high strength, nickel-chromium alloy.		208g	n/a
<b>Aalbadent Verabond 2V</b> A premium, high strength, nickel-chromium alloy formulated for Vita and other European fine-grain porcelains.		208g	n/a
<b>Aalbadent VeraSoft ES</b> An extra soft alloy.		206g	n/a
<b>Shera Alloy NP</b> A nickel-free and chemically proven beryllium-free cobalt chrome alloy.		1kg	402143

## Chrome alloys

Product name:	Available in:	Weight/size:	Product code:
<b>Aalbadent Vera PDN</b> Economical ingots for cobalt-chromium cast partial dentures.		1kg	n/a
<b>Shera Lit Cylindra Alloy</b> Universal alloy with an excellent price to performance ratio. Nickel-free.		1kg	401043
<b>Shera Lit Imperial</b> Hemispherical. A super hard top alloy. Suitable for laser welding due to the low carbon content.		1kg	401013

## Solders

<b>Aalbadent Vera Solder</b> A premium high-fusing, pre-solder for nickel based casting alloys.		2kg	n/a
<b>Aalbadent Vera PD Solder</b> A premium high-fusing solder for cobalt based partial denture casting alloys.		2kg	n/a
<b>Shera Flux NE</b> Soldering flux for all non-precious alloys.		50ml	934221
<b>Shera Lot N</b> Solder bar for all non-precious alloys.		8 bars (approx. 5g)	934131
<b>Shera heat shielding paste</b> Asbestos-free - protects all acrylics, ceramics, and metals against damage caused by heat whilst soldering.		235g	934231

## Electrolytic solution

<b>Shera Dan</b> Polishing electrolyte.		1 litre	709050
--	--	---------	--------

## Duplicating materials

### Silicone putties

<b>Shera Crystal kit</b> A transparent addition cure silicone for use with light curing materials, e.g. preparing translucent side and overbites. Supplied in 1:1 cartridge form with mixing tips.		2 x 50ml	960201
<b>Shera Duett</b> Silicone putty.		2 x 1.5kg 2 x 5kg	301010 301015
<b>Shera Duett - Soft</b> Silicone putty. Shore hardness - 85.	Kit	2 x 1.5kg	301040

Product name:	Available in:	Weight/size:	Product code:
<b>Shera Duplica</b> Blue addition cure silicone putty. Shore hardness - 85.	Kit	2 x 3kg	301071
<b>Shera Exact 85</b> Condensation cure putty. Shore hardness - 85.	Kit	1.8kg + 1 activator 10kg + 7 activators	302021 302026

### Duplicating gels

<b>Betagel</b> Agar-agar duplicating gel. Suitable for gypsum duplicating, no alum wash required.		10kg	n/a
<b>Shera Duble</b> Agar-agar duplicating gel. Cost-effective and very elastic. Suitable for all investment materials for denture framework.	Green	6kg	322010
<b>Shera Form</b> Agar-agar duplicating gel. Extremely strong and dense, designed for investment replication.	White	6kg	322030
<b>Shera Hydrokol</b> Agar-agar plaster/stone duplicating gel. Designed for duplicating gypsum-based materials, no alum wash is required.	Beige	6kg	322040
<b>Vertex Castagel</b> Agar agar duplicating gel designed for pourable technique.	Blue	6kg	FVPOU0004

### Duplicating silicones

<b>Supersil 9</b> An addition-curing 1:1 duplicating silicone. Shore hardness - 9.	Blue	2 x 1kg	SSL9-1
<b>Supersil 17</b> An addition-curing 1:1 duplicating silicone Shore hardness - 17.	Green	2 x 1kg 2 x 6kg	SSL17-1 SSL17-6
<b>Supersil 24</b> An addition-curing 1:1 duplicating silicone. Shore hardness - 24.	Green	2 x 1kg 2 x 6kg 2 x 25kg	SSL24-1 SSL24-6 SSL24-25
<b>Supersil 24 rapid</b> An addition-curing 1:1 duplicating silicone. Shore hardness - 24. Rapid-curing.	Orange	2 x 1kg 2 x 6kg 2 x 25kg	SSLR-1 SSLR-6 SSLR-25
<b>Supersil dispenser pumps</b>			n/a

Product name:	Available in:	Weight/size:	Product code:
<b>Shera Duosil S</b> An additional core duplication silicone. Shore hardness - 9.	Royal Blue	2 x 1kg	321140
<b>Shera Duosil H</b> Blue addition cure duplicating silicone. Shore hardness - 17.	Blue	2 x 1kg 2 x 5kg	321040 321041
<b>Shera Duosil Express</b> Yellow addition cure duplicating silicone. Shore hardness - 22.	Yellow	2 x 1kg 2 x 5kg	321100 321101
<b>Shera dispenser pumps</b>			SHEDIS

## Alginate

<b>Chromatic alginate</b> Dust-free alginate, ideal for economic duplication. With a chromatic phase indicator and pleasant mint flavouring.		450g	AL555
---	--	------	-------

## Duplicating and investment accessories

<b>Adhesive Duplicating Tape</b>		40m	891007
<b>Vertex canal cutters</b>		Set of 2	FVPOU0002
<b>Investing ring tape</b>		25m	892001
<b>Shera Sepal U spray</b> A wax-based universal separating agent, suitable for separating larger stone surfaces. Will separate the likes of SheraPolan from polyether impressions.	Orange	500ml	701055
<b>Shera Separat</b> Separating agent spray based on wax.		300ml	701105
<b>Shera Pastenharter</b> Catalyst for Shera silicone putties.		40ml	302094
<b>John Winter Slipsil 7</b> A universal silicone release spray.		400ml	n/a

## Acrylics and tray materials

### Heat cure acrylics

<b>Wintercryl bulk pack</b> Cadmium-free denture base material.	Pink veined Translucent veined	10kg + 5 X 1 litre liquid	n/a
<b>Wintercryl heat cure powder</b>	Pink veined Translucent veined Clear	1kg 3kg 10kg 50kg	n/a

**JOHN  
WINTER**

Product name:	Available in:	Weight/size:	Product code:
<b>Wintercryl heat cure liquid</b>		1 litre	n/a
<b>Shera Don powder</b> Heat cure acrylic. High strength with exceptional flow characteristics.	Pink Pink veined Pink translucent veined	1kg	501010 501020 501030
<b>Shera Don liquid</b>		500ml	508010

### Cold cure acrylics

<b>John Winter Rapid Repair liquid</b>	Pink veined Translucent veined	3kg	n/a
--	-----------------------------------	-----	-----

### Pourable acrylics

<b>Shera Press powder</b> Cold cure acrylic.	Pink Pink opaque Clear Pink veined Pink transparent veined	1kg	502010 502020 502030 502040 502050
<b>Shera Press monomer</b> Liquid for Shera Press cold cure acrylics.		500ml 1kg	508020
<b>Vertex Castavaria powder</b>	Available in a wide range of shades, ask for further details.	1kg	n/a
<b>Vertex Castavaria Cystal Clear liquid</b>		1 litre	n/a
<b>Vertex Castavaria liquid</b>		500ml	n/a

### High impact acrylics

<b>John Winter Platinum HI pack</b> A high-impact acrylic and liquid.		500ml 1kg	n/a
<b>Platinum HI powder only</b>		1kg	n/a
<b>Platinum HI liquid only</b>		500ml	n/a

### Orthodontic acrylic

<b>John Winter Orthodontic resin</b> A strong, self-curing acrylic enabling easy construction of appliances. Non-porous, requiring no mixing, waxing or flasking.	Powder	3kg 10kg 50kg	OR590 OR593 OR592	
	Liquid clear	1litre 5 litre	OCL595 OCL596	
	Liquid pink	1litre 5 litre	OPL600 OPL601	
	<b>Shera Orthomer</b> An orthodontic liquid based on MMA. Cadmium-free, cold-cure acrylic suitable for spray and dough technique.	Powder	1kg	504010
		Liquid clear	500ml	508050
		Liquid pink	500ml	508040

Product name:	Available in:	Weight/size:	Product code:
<b>Vertex Orthoplast liquid</b>	(Various colours)	100ml	n/a
<b>Vertex Orthoplast powder</b> Orthodontic self-cure acrylic.	Powder Liquid clear Liquid pink	1 kg 4kg	n/a

### Separating and isolating agents

<b>John Winter Co Mo seal</b> Separating agent for denture work. For separating plaster models and flasks when producing acrylic dentures and for repair work.		5 litre 25 litre	CO240 CO245
<b>Vertex Divosep Blue liquid</b> Separating agent.	Blue	1 litre 5 litre	VDSBL01000 VDSBL05000
<b>John Winter ISO-SEP</b> Separating agent.		1000ml	n/a

### Denture teeth

<b>Refine</b>	Full range of anterior and posterior teeth available. Call 01422 364 213 for a brochure.
---------------	--

### Bonding agent

<b>Vertex Acrylbond</b> Universal bonding agent for acrylics.		75ml	AVABV00075
--	--	------	------------

### Light cure tray materials

<b>Voco light cure trays</b> Economical and clean, simple and quick to use. The pink Profibase trays are also ideal for base plates.	Pink Blue Clear		2112 2402 2408
<b>John Winter light cure tray</b>	Blue Pink		n/a
<b>Vertex Eco LightBox</b>			FVMAC0005
<b>Vertex LC gloss</b> Light-cure glaze liquid.		30ml	FVACC0023

### Temporary crown material

<b>Voco Structure 2 kit</b> Temporary crown & bridge material.		75g cartridge Dispenser type 2	n/a
<b>Voco Structure 2 refill</b> Temporary crown & bridge material.	A1 A2 A3 B1 B3	75g cartridge	n/a

## Reline materials

Product name:	Available in:	Weight/size:	Product code:
<b>Flexacryl soft pack</b> Cold-cure soft reline denture material.		100g powder 118ml liquid 5ml acrylic primer	
<b>Flexacryl soft pack large</b> Cold cure soft reline denture material.		454g powder 2 x 236ml liquid 2 x 30ml acrylic primer	
<b>Voco Ufi Gel C hard kit</b>		80g cartridge 10ml adhesive Mixing tips type 8	n/a
<b>Voco Ufi Gel C hard refill</b>		80g cartridge Mixing tips type 8	n/a
<b>Voco Ufi Gel mixing tips</b>		Pack of 50	n/a
<b>Voco Ufi Gel SC soft kit</b>		50ml cartridge 10ml adhesive 10ml glaze Mixing tips type 8	n/a
<b>Ufi Gel SC soft refill</b>		50ml cartridge	n/a

## Block out gel

<b>Voco block out gel</b>		4 X 1.2ml	1661
---------------------------	--	-----------	------

## Waxes

### Denture wax - sheet wax

<b>Annutex</b> A toughened sheet wax, easy to adapt with no greasiness.		2.5kg 20kg (lab pack)	AN380 AN385
<b>John Winter No.1 wax</b> A redder coloured wax.		20kg	JW375
<b>J-Wax</b> Our own, good quality, everyday modelling wax.		1 box 6 boxes 12 boxes	n/a

### Denture wax - preformed blocks

<b>John Winter bite blocks</b> Deep, long and pliable these bite blocks are made from virgin wax.	75 blocks per box	1 box 5 boxes 10 boxes 20 boxes	BB395 BB400 BB405 BB410
--	-------------------	--	----------------------------------

## Crown and bridge wax

Product name:	Available in:	Weight/size:	Product code:
<b>Diagnostic crown wax</b>	White	65g	DR000111HD813
<b>Shera aesthetic wax</b> Perfect for diagnostic wax-ups, modelling crowns & bridges.	White	45g	974115
<b>Shera CAD wax</b>	Beige	45g	SD802010
<b>Shera cervical wax</b>	Red	45g	974121
<b>Shera modelling wax</b> Good build up and modelling characteristics. Low thermal contraction and cooling time.	Blue Beige	45g	974105 974104
<b>Shera reprowax</b> Modelling and injection wax.		50g 10 x 50g	974150 974155

## Sprue wax

<b>Sprue wax</b>	2.5mm 3mm 3.5mm 4mm 5mm	250g	n/a
------------------	-------------------------------------	------	-----

## Casting wax

<b>Ugin stippled wax</b> Translucent blue wax available in two textures and two thicknesses.	Fine 0.4mm Fine 0.5mm Coarse 0.4mm Coarse 0.5mm	15 sheets to a box	U22100F U22100G
---	--	--------------------	--------------------

## Plastiform Patterns

<b>Plastiform</b> Preformed plastic patterns. For use in the construction of partial denture frameworks.		Box of 10 cards	U11100
<b>Shera Modellhaftgrund</b> Model adhesive. A clear liquid, improving the adhesion of wax to the surface of investment models.		30ml bottle with brush 100ml bottle	709132 709133
<b>Thinner for Shera Modellhaftgrund</b>		100ml	709143

## Cleaning agents and solvents

### Finishing

<b>John Winter plaster dissolver</b> Economy plaster dissolver. For use in ultrasonic baths.		5 litre	DS565
---	--	---------	-------

Product name:	Available in:	Weight/size:	Product code:
<b>Shera Son 927</b> A superfast denture cleaner that removes plaster and stone. Can be diluted with water to dissolve gypsum with or without ultrasonic bath.		1 litre	702070
<b>Shera Son 928</b> A superfast plaster/stone dissolver. Can be diluted with water to dissolve gypsum with or without ultrasonic bath.		1 litre 5 litre	702080 702081
<b>Shera Wax - EX</b> A degreasing solvent for wax boilout machines.		1 litre 5 litre	702230 702231
<b>Plastipol</b> A synthetic, pumice alternative. Antibacterial and odourless, lasts 30% longer than pumice.		10kg	PP340
<b>Aluminium oxide</b>			
<b>Aluminium oxide</b> 50 micron grade 220/240 - for use in pencil blaster. 125 micron grade 120/150 250 micron grade 60 350 micron grade 46.		25kg bag	AO140 AO150 AO160 AO170
<b>Polishing beads</b>			
<b>Glass polishing beads 50 micron</b> 50 micron.		25kg	GB185
<b>Pumice</b> Coarse grade (1/0) Medium grade (2/0) Fine grade (3/0).		22.5kg	PU325 PU330 PU335
<b>Shera Lux 711</b> A pink, high quality, high lustre polishing emulsion for acrylics and all alloys.		500g	954212
<b>Shera POL 701</b> A green, polishing paste ideal for all alloys, especially yellow metals and titanium.		300g	954101
<b>Shera POL 704</b> A pink, high lustre polishing block. For all metals, especially chrome cobalt alloys and non-precious metal alloys.		300g	54104
<b>Shera POL 705</b> A white, universal polishing paste. Ideal for; All alloys (both precious and non-precious) Ceramics All acrylics.		300g	954105
<b>Shera Dialux</b> A diamond polishing paste.		20g	954230
<b>Shofu Dura Polish</b> An aluminum oxide polishing paste for pre-polishing your dental materials.		20g	n/a

Product name:	Available in:	Weight/size:	Product code:
<b>Shofu Polish Dia</b> A highly-filled diamond particle polishing paste for a high gloss finish on all hard dental materials.		5g	n/a
<b>Vonax polishing</b>		Approx 450g	VO345
<b>Hypol (canning) polishing block</b>		Approx 500g	HY350

## Polishing brushes

<b>Pioneer lathe brush 2" metal centre</b> Plastic insert, stiff bristle.	Box of 10	MC315
<b>Pioneer lathe brush</b> 2 row 2" diameter 3 row 2.5" diameter 4 row 3.25" diameter John Winter 5 row (3+2) 3.25" diameter.	Box of 10	PB310 PB305 PB300 PB295
<b>Attenborough lathe brushes</b> 5 row (3+2) calibris 80mm diameter.	Box of 10	AT290
<b>Pioneer palate brush</b> 9 knot palate brush.	Box of 10	PA320

## Mops

<b>B mop</b> 4 x 1/2" (39 fold).	100gm powder 118ml liquid 5ml acrylic primer	220015
<b>Pleated calico mop</b> 4 x 1/2".		PM205
<b>Swansdown Mop</b> 4 x 1/2" 4 x 1".		SM210 SM215
<b>Wool mop</b> 4" diameter.		WM220

## Felt cones

<b>Felt polishing cone</b> Large Medium Small.		FC225 FC226 FC227
---	--	-------------------------

## Liquids

<b>Maxil proteserens spray</b> Cleaning solution suitable for flexible dentures.	100ml	n/a
<b>Shera Finish</b> Gives a great shine to acrylic dentures or orthodontic appliances. Removes any traces of residual monomer and leaves a pleasant, fresh taste.	75ml	990101

## Rotaries

### Tungsten burs

Product name:	Available in:	Weight/size:	Product code:
<b>Bur 1001</b>			1001
<b>Bur 602203</b> Double ended medium cut bur, ideal for metalwork.			602203
<b>Bur 602603</b> Double ended medium cut bur, ideal for metalwork.			602603
<b>Bur 6102</b> Tapered cross cut bur, Ideal for metalwork.			6102
<b>Bur 7001</b> Inverted pear shape coarse cross cut bur, ideal for acrylic trimming.			7001
<b>Bur 7301</b> Bullet shaped coarse cross cut bur, ideal for acrylic trimming.			7301
<b>Bur 9001</b> Inverted pear shaped extra coarse cross cut bur, ideal for plaster trimming.			9001
<b>Bur NEM 198</b> Mini tapered shape diamond cut bur producing a smooth finish, ideal for metal work and occlusal carving.			NEM 198
<b>Bur NEM 289</b> Mini bullet shape diamond cut bur producing a smooth finish, ideal for metal work and occlusal carving.			NEM 289
<b>Bur NEQ 014</b> 8 bladed rose head bur, 1.4mm dia, ideal for penetrating work.			NEQ 014
<b>Bur TC 110</b> Rats tail bur, diamond cut, ideal for trimming metal work.			TC 110
<b>TC D/Cut NEM 040</b> Tapered shape diamond cut bur, ideal for trimming acrylic and metal.			NEM040
<b>TC D/Cut NEM 060</b> Inverted pear shape diamond cut bur, ideal for trimming acrylic.			NEM060
<b>TC EX Coarse 070</b> Inverted pear shape diamond cut super coarse bur, ideal for trimming acrylic and plasters.			NEM070
<b>Tricutters</b> Pack of 3 tricutters, ideal for trimming thermoplastics and acrylic.		Pack of 3	TR255

## Polishing

Product name:	Available in:	Weight/size:	Product code:
<b>Acrypol</b> A silicone abrasive for acrylic.		Box of 50	ACP110
<b>Shofu AcryPoint</b> For adjusting, finishing and polishing of acrylic dentures, all acrylic appliances and acrylic impression trays without additional polishing pastes.	Full range available - ask for further details		n/a

## Ceramic Abrasives

<b>PL+S Profiler</b> Diamond impregnated rubber profilers.	Barrel Shaped	Fine grade Medium grade	PBF272 PBM271
	Pencil shaped	Fine grade Medium grade	PPF274 PPM273
<b>PL+S Profiler - mini</b>		Fine Medium Course	n/a
<b>Shofu Dura Green</b> For surface characterization and adjusting details.	Full range available - ask for further details		n/a
<b>Shofu Dura Green Dia</b> Vitrified-bonded diamond abrasive designed for contouring porcelains and ceramic copings.	Full range available - ask for further details		n/a
<b>Shofu Soft Cut</b> Two-step system for polishing fragile porcelain veneers, inlays and onlays.	Full range available - ask for further details		n/a

## Separating discs

<b>Separating disc</b>	25 x 06mm 38 x 1.0mm 38 x 1.0 G reinforced	n/a

### Plaster trap

<b>Plaster trap</b>	n/a
<b>Plaster trap replacement bags</b>	020004

**Brochures available for all our brand partners on request.**

## Vibrating tables

Product name:	Available in:	Weight/size:	Product code:
<b>Nuova vibrator</b> Vibrator with rubber removable plate. Dimensions cm. 23 x 15 and vibration control device.			VB2
<b>Sifradent vibrator</b> The vibrators VIB15 & VIB24 create vertical oscillations evenly on the whole surface. The models differ only in sizes of vibrating area. Adjustment knob with six vibration levels ensure smooth increase in power. This gradual increase allows for exact adjustment and prevent occurrence of bubbles.	Rubber plate 130 x 150mm 235 x 145mm		VIB15 VIB24
<b>Renfert Vibrax</b> Bubble-free flow behaviour using two wave ranges with 4 levels of intensity. Low transfer of the vibrations to the workbench as the housing is oscillation decoupled. Long service life using maintenance-free. vibration magnet.			1830000003

## Vacuum mixer

<b>Nuova mixer</b> 220V 400 RPM /0,8BAR/TIMER/ supplied with 1 cip 500cc & table holder.			MX4T220N
<b>Nuova mixer</b> 220V 400 RPM /0,8 BAR/TIMER/ supplied with 1 cup 500cc & wall bracket.			MX4W220N
<b>Nuova mixer</b> 220V/0-400 RPM/0,8 BAR/30 automatic mixing cycles /manual cycles supplied with 1 cup 500cc & table holder.			MXRT220
<b>Renfert Twister</b> 100-240 V~, 50/60 Hz			1828000003
<b>Renfert Twister Venturi</b> 100-240 V~, 50/60 Hz			1827000003
<b>Renfert Twister Evolution</b> 100-240 V~,50/60 Hz			1828000003
<b>Renfert Twister Evolution Venturi</b> 100-240 V~, 50/60 Hz			1829000003

## Model trimmer

<b>Nuova trimmer - wet</b> 1200W - water version. Bakelite disc included.			SW1200
--	--	--	--------

Product name: Available in: Weight/size: Product code:

**Nuova trimmer - wet and dry** SD1200  
1200W - water and dry. Diamond disc included.

**Renfert MT3 incl. Marathon** 1808050003  
Wet trimmer with diamond wheel.

**Renfert MT3 plus incl. Marathon** 18030500  
Wet/dry trimmer with diamond wheel.

### Air chisel

**Sifradent pneumatic plaster chisel** 320  
With three points - 7mm, 9mm, 11mm.

**Renfert Pillo chisel** 50224000  
Deflasking chisel, oil-free mechanism.

**Power Pillo chisel** 50225000  
Deflasking chisel, oil-free mechanism.

### Model saw

**Nuova saw** TAGUP  
With an 85mm diamond disc positioned under the working plate with laserpointer - pre-arranged for powder suction unit.

### Arch trimmer

**Nuova finisher** TR6.1  
Pre-arranged for powder suction.

**Renfert Millo pro** 1804000003  
220-240 V~, 50/60 Hz

### Pin drill

**Renfert Pin drilling unit top spin** 1840000003  
100-240V 50/60Hz

### Polishing lathes

**Nuova polishing machine 500** PL500  
2 speed 1400 & 2800 RPM.

**Sifradent polishing machine** 905  
2 speed 1400/2800 RPM.

### Sandblasters

**Sifradent sand blaster** EASY SAND  
Compact sand blaster with two modules. 25-100MY.

**Sifradent sand blaster** EASY SAND R  
Compact sand blaster with recycling module only.

**JOHN  
WINTER**
